

For the reasons presented in the REMARKS section of said Amendment "B" After Final Action, applicant is in the belief that the application is now in condition for allowance.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "Version with markings to show changes made."

**VERSION WITH MARKINGS TO SHOW CHANGES MADE**

**IN THE CLAIMS:**

Claims 1 and 21 have been amended as follows:

1. (Amended) A temperature sensor comprising:  
a temperature sensing element having electrodes thereon; and  
elongated electrically conductive lead lines each attached to a corresponding one of  
said electrodes, said lead lines being elastic, said lead lines each having one end attached  
corresponding one of said electrodes and including an externally exposed semicircular  
kinked part proximal to the other end.

21. (Amended) A temperature sensor comprising:  
a temperature sensing element having electrodes thereon;  
elongated electrically conductive lead lines each having one end attached to a  
corresponding one of said electrodes and an approximately semi-circularly formed externally  
exposed kinked part proximal to the other end thereof; and  
an electrically insulating cover which covers said temperature sensing element and  
portions of said lead lines but leaves the kinked parts exposed.
